Serger Classes

General Serger Information

<p>Why 8 Threads on a Serger? Skill: Intermediate</p>	<p>Baby Lock Ovation, Imagine</p>	<p>Triumph, Evolution, Evolve Wave, Evolve</p>	<p>Why 8-Threads on a Serger? It’s a question that we hear all the time! Why do you need them and what would you do with it? With 30 years of Baby Lock experience under her belt, there is nobody better to explain why than Pam Mahshie. We’re pretty sure that you’ll know why when you’ve finished watching! Video length: 20:04 minutes Instructor: Pam Mahshie</p>
<p>Baby Lock Serger Basics Skill: Basic</p>	<p>Baby Lock Ovation, Imagine</p>	<p>Applies to all Baby Lock sergers with RevolutionAir, xtraordinAir or Jet-Air</p>	<p>Whether you own a Baby Lock serger, or you a just thinking about owning one, this video will help you understand all those little knobs and adjustments that you can make to adjust your stitches. Video length: 43:35 minutes Instructor: Sara Gallegos</p>

Serger Troubleshooting Skill: Basic	Baby Lock Ovation, Imagine	Applies to all Baby Lock sergers with RevolutionAir, xtraordinAir or Jet-Air	We have a saying at Baby Lock, "99.9% of the time, problems that you are having with your serger are operator error!" Follow Sara for this fun class that will teach you how to know what to do to ensure success 100% of the time! Video length: 10:11 minutes Instructor: Sara Gallegos
Sewing with Knits - Lesson One Skill: Basic	Baby Lock Imagine	Applies to most 4, 5 or 8-Thread sergers	Want to stitch with knits? Join Fashion Designer Joi Mahon in this fun series, Sewing with Knits! Joi will start you out with the basics, get you acquainted with the nitty gritty when it comes to types, stretch, and tools that will help you be successful when it comes to sewing knits! Follow the entire 4-part series to gain more skills along the way. Video length: 49:24 minutes Instructor: Joi Mahon
Sewing with Knits - Lesson Two First Stitches with Knits Skill: Basic	Baby Lock Ovation	Applies to most Baby Lock sergers	In this lesson with Fashion Designer Joi Mahon, learn how to apply different serger stitch finishes, their settings, and more on various knit fabrics! While you can certainly stitch a knit garment with a sewing machine, knits work really well with sergers. If you don't own a serger, this class is beneficial to see how a serger can help you stitch knits more efficiently and professionally. While Lesson Two focuses on serger stitches, the next lesson will show you how to sew a pair of yoga pants with both a serger and a sewing machine! Follow the entire 4-part series to gain more skills along the way. Joi uses a Baby Lock Ovation in this class, but most of the stitches discussed in this video will be applicable to all Baby Lock sergers. Video length: 59:51 minutes Instructor: Joi Mahon

Regalia - Getting Started Skill: Basic	Baby Lock Regalia		<p>Your new Baby Lock Regalia is all set up and you are ready to get started. This class will cover the things you need to know before you start stitching your first quilt top. Learn how to customize your handlebars, how to wind a bobbin, and how to thread your new Regalia. You will also learn an easy way to get the tension perfect on any thread; and how to keep the Regalia clean and oiled so it will always be ready to sew. And maybe the best part of this class is that you will learn how easy it is to trouble shoot and solve the problem if the stitching is not perfect, so you can get quilting!</p> <p>Video length: 77:03 minutes Instructor: Lora Kesilis</p>
Regalia - Let's Quilt Skill: Basic	Baby Lock Regalia		<p>Your new Baby Lock Regalia is all set up, threaded and the tensions are balanced. Now you are ready to sew, but which sewing mode should you select, and what do all those icons on the screen mean? This class will guide you through the differences between stitching with Cruise Stitch Regulation, Precision Stitch Regulation and the Manual stitching modes. We will go over the controls on the Main Screen, so you know how to set up the stitch just the way you desire. You will learn how to pull up the bobbin thread and sew tie-off stitches when you start to sew and at the end, so you can trim the threads. You'll also see how to select and use the built-in basting stitches in the Regalia and what a Walking Stitch is and how it can be used.</p> <p>Video length: 50:41 minutes Instructor: Lora Kesilis</p>
Regalia - Behind the Main Screen Skill: Basic	Baby Lock Regalia		<p>There are functions built into your new Baby Lock Regalia that will allow you to customize your machine to make your quilting fast, fun and easy. This class not only explains what all those icons on the Main Screen are, but it takes you behind that Main Screen to the Tools, Settings and Information screens. Did you know that the chart with recommended needle sizes for different thread weights is in the machine, so you do not have to find the Instruction Manual? You can control the lighting level and set timers to keep track of how long it takes to stitch your project and to tell you when it is time to stop quilting. Record how much thread is on your bobbin and set an alarm to let you know when the bobbin is almost empty. You can also set a stitch counter to keep track of how many stitches are used in your quilt, and there is another counter that keeps track of every stitch ever sewn with your Regalia. Come go behind the Main Screen with me and learn just how much your new Regalia has to offer.</p> <p>Video length: 50:41 minutes Instructor: Lora Kesilis</p>

Pro-Stitcher - The New Features Skill: Basic	Pro-Stitcher	Pro-Stitcher Premium	<p>The new features shown in this class were added to the program by way of a FREE update posted at Babylock.com. The free update adds significant new features to the Pro-Stitcher software including an increased design collection, a simulator mode, Skew 2, Swap Start and End and more. This class will walk you through the update process and those great new features. NOTE: There are three different updates on the Baby Lock website and they must be installed in order. You will see as we get started with this class how to check the version number on your Pro-Stitcher program. If you have a version lower than 12, then you must start by installing version 12 update first. Then install the 14 version and finish with the version 16 update. There are two different versions of the 16 update and you will need to select the one that is for the style of tablet you are using with your Pro-Stitcher. The description of the update on the download page tells you which version of the update works with which style of tablet, so take a moment to read that description carefully. <i>Note, this is filmed with Pro-Stitcher, not Pro-Stitcher Premium.</i></p> <p>Video length: 28:35 minutes Instructor: Lora Kesilis</p>

Long Arm AUTOMATION: QuiltMotion & Quilter's Creative Touch

Quilter's Creative Touch Basics - Part 1 Skill: Basic	Quilter's Creative Touch	Crown Jewel III, Crown Jewel II, Jewel	This class will help you get started with the new Quilter's Creative Touch upgrade to the QuiltMotion system. Learn what the options on the new opening menu screen are. And then follow through the new more direct method of selecting a pattern and going straight to quilting. See how to use a Block place to position and size your pattern. You now have a choice when pulling the bobbin thread to use either a manual pull or an automatic pull. Learn how to use both types of bobbin pull at both the beginning and at the ending of a pattern. Learn what stitch settings you can control and how to change those settings to your preferences. Video length: 54:41 minutes Instructor: Lora Kesilis
Quilter's Creative Touch Basics - Part 2 Skill: Basic	Quilter's Creative Touch	Crown Jewel III, Crown Jewel II, Jewel	Learn how to use a Four Points place for a quilt block that is not square and how to use the same Four Points place for an on-point block. Understand how to use the three different styles of digital rulers. See how easy it is to create, optimize, and stitch a pantograph with multiple patterns and how to place and stitch vertical pantographs. Learn what to do if you run out of bobbin thread in the middle of a pattern. And see how easy it is to record your own free motion patterns, so they can be stitched as automated quilting patterns. Video length: 57:07 minutes Instructor: Lora Kesilis
Quilter's Creative Touch - PatternCAD Basics Skill: Basic	Quilter's Creative Touch	Crown Jewel III, Crown Jewel II, Jewel	PatternCAD will allow you to design your own custom quilting patterns, and PatternCAD is included in your Quilter's Creative Touch Software. Learn how easy it is to create your own unique quilting designs and how even the simplest quilting motif can be manipulated into many different looks. You will be having fun and creating your own unique style of quilting in no time! Video length: 67:06 minutes Instructor: Lora Kesilis

Quilter's Creative Touch - All about Placement Part 1 Skill: Intermediate	Quilter's Creative Touch	Crown Jewel III, Crown Jewel II, Jewel	<p>At the heart of the Creative Touch software is the ability to place your quilting patterns exactly where you want them on your quilt top. Knowing before you begin to stitch that the quilt pattern is where you want it to be and the exact size it needs to be creates a sense of confidence that allows you to be as creative as you want to be with your quilting. Part 1 of this class covers the basic placement methods including One Point, Block, Four Points, and Two Points placement methods and the fill options for those placement methods. It also answers some basic questions including what to do when the bobbin runs out in the middle of quilting, how to place a design in an on-point block, how to place pantograph patterns vertically and how to import new patterns into your Creative Touch software.</p> <p>Video length: 83:58 minutes Instructor: Lora Kesilis</p>
Quilter's Creative Touch - All about Placement Part 2 Skill: Intermediate	Quilter's Creative Touch	Crown Jewel III, Crown Jewel II, Jewel	<p>As you become comfortable with the basic placement methods in your Creative Touch, you may find that you are ready to tackle more challenging types of placement. How do you get that triangle pattern perfectly rotated, sized and placed? What is the difference between Quilt as Single Pattern and Quilt as Rows? And how does the Virtual Long Arm function to allow you to place and stitch patterns that are larger than the reach of your machine? How will Multi Point place allow you to place patterns in any shape area? Learn how all of your placement methods work and when and why you might select a particular placement method. Know which methods work for perfect "square" quilts and which ones will let you successfully quilt less than perfect quilt tops. You have the tools you need to successfully quilt all those tops in your collection! Part 2 of this class covers Triangle, Tilted Block and Multi Point Placement methods. It also covers creating and placing Virtual Longarm patterns and using the Virtual Longarm technology to place continuous line pantograph quilting.</p> <p>Video length: 78:48 minutes Instructor: Lora Kesilis</p>
Quilter's Creative Touch - Moving Your Designs Skill: Intermediate	Quilter's Creative Touch	Crown Jewel III, Crown Jewel II, Jewel	<p>Learn how to use Move to create more elaborate quilting. FontWorks - Give Your Lettering a New Look - Part 2 Skill: Basic	Designer's Gallery FontWorks		<p>Go far beyond basic lettering with the tools in FontWorks. After taking this class, you will be able to use the Outline fonts to create many different styles of lettering. Learn how to identify which fonts are Outline fonts and how to use the different styles of these fonts to change the look of your lettering. You will see how easy it is to add appliqué text to your next project and learn how to stitch those applique letters. You will also be able to create straight stitched lettering to go with cross stitch or redwork embroidery, sew large Satin letters on a flag or banner, and more.</p> <p>Video length: 55:33 minutes Instructor: Lora Kesilis</p>
FontWorks - Create and Edit Lettering Skill: Basic	Designer's Gallery FontWorks		<p>If you want lettering that is easy to create and gives you many options to customize the look, then you are going to love working with FontWorks.</p> <p>Learn how to create normal lettering, circular lettering, monograms, vertical text, text on a path, and text to stairs. See how easy it is to change the look by adjusting the height, width, slant of the letters, alignment, and the space between lines of text. You can even click and drag to move individual letters or select individual letters to rotate and re-size them.</p> <p>We will also look at the new Word Drop feature, which lets you create multiple copies of the same design with different text on each one. Do you need to create vests for the Cub Scout troop with different names on each one? You will love Word Drop.</p> <p>Video length: 66:41 minutes Instructor: Lora Kesilis</p>
FontWorks - All About Monograms Skill: Basic	Designer's Gallery FontWorks		<p>Monograms are quickly created, easily stitched, and add a personal touch wherever they are used. It's easy to see why monogramming is one of the most loved embroidery techniques. How do you make your monograms stand out? FontWorks can help.</p> <p>In this class, we'll explore the variety of ways to create those special monograms using FontWorks. In addition to the monogram fonts in FontWorks, we will look at using TrueType fonts, your standard FontWorks fonts, and even using two different fonts to create different looks. We will also look at using the FontWorks built-in designs to embellish monograms. Plus, monograms can be customized using Distortion, Enveloping, and Text to Stairs.</p> <p>Video length: 58:03 minutes Instructor: Lora Kesilis</p>
